Add “Already registered mobile?” at the top banner.....	2
---	---

Add "Already registered mobile?" at the top banner.

The screenshot shows the iFLEXiHRMS web application interface. The browser address bar displays `localhost/eStaff/Admin/AdminPage.aspx`. The page header includes the iFLEXiHRMS logo, a navigation menu with items like Home, e-Employee, e-OT, e-Leave, e-Payslip, and Admin, and a user profile section. The user profile section shows "Welcome flexi", "UserGroup: ADMIN", "RouteID: -", and a link "Already Registered?" with a green checkmark. Below the header is a navigation bar with dropdown menus for Configuration, User Account, Access Page, Database, Route Setting, and Supervisor Menu. The main content area features a breadcrumb trail "Home > Default > General Setting" and a row of icons. At the bottom, there are three widget boxes: "Date & Time" showing 17:02:53 on Monday, 22 March, 2021; "Welcome" with a message and "Date of Joining: -"; and "Announcements" with a title "KMY INTERNAL MEMO-2020/05 - Usage of Rest Rooms" and metadata "Updated: 27/11/2020 6:27:18 PM Created by HRGA". A red arrow points to the "Already Registered?" link in the user profile section.
